Yarding and Loading Costs for Salvaging in Old-Growth Douglas-Fir with a Mobile High-Lead Yarder (Classic Reprint) (Paperback)

By John Carow

Forgotten Books, 2017. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Excerpt from Yarding and Loading Costs for Salvaging in Old-Growth Douglas-Fir With a Mobile High-Lead Yarder This report describes the use of a mobile high-lead yarder to salvage dead and down timber in old-growth stands reserved for future cutting under the staggered-setting system of management. Atime and production study of the yarding Operation, and regression analyses of the data revealed the factors affecting each step in the yarding sequence. Results of the analyses permit pre diction of yarding time per turn for different yarding distances and log sizes under conditions similar to those encountered on the study area. Also, an equation was developed to relate loading time to the number of logs per load. Data on yarding costs were obtained by application of the yarder operating-cost rate to yarding times. A consideration of the geometry involved in yarding to landings along contour roads brought in other related logging costs-cab1e-road changing, moving and rig up, and truck road construction-so that cost data from both the time study and the...
