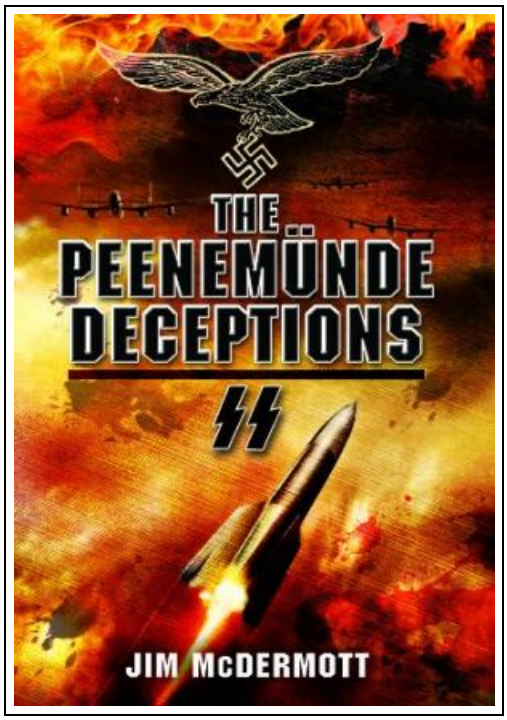
The Peenemunde Deceptions (Paperback)



Filesize: 6 MB

Reviews

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

Pen Sword Books Ltd, United Kingdom, 2013. Paperback. Condition: New. Language: English . Brand New Book. Peenemunde: windswept corner of the Third Reich and birthplace of the space age. Otto Fischer, a severely wounded Luftwaffe officer and former criminal investigator, is summoned to solve a seemingly incomprehensible case: the murder of a leading rocket engineer during a devastating air-raid. With only days until the SS assume control of the production of a remarkable new weapon, Fischer must find a motive and perpetrator from among several thousand scientists, technicians, soldiers and forced labourers. As he struggles to get the measure of a secretive, brilliant world in which imagination moves far beyond the limits of technology, what at first appears to be a solitary crime draws him into a labyrinth of conspiracy, betrayal and treason. McDermott brings skills previously honed whilst producing well-researched history books to the discipline of writing fiction, creating work that is both historically accurate and evocative as well as stylish in a literary sense.
