A DEBT of gratitude is due to the author from pianists and musicians generally for this complete and careful collection of facts respecting musical ornamentation. It is true that of the graces, to use the quaint old English term, many are already obsolete, while others are gradually disappearing. But, if only for the fact that Sebastian Bach makes extensive use of so many, they cannot be ignored. For the sake alone of that great musician, some of them must be understood: for it is only through clear comprehension of the letter that we can arrive at the spirit of that master, whose works, in spite of some antiquated embellishments, seem to defy the ravages of time. It is strange that though several books contain explanations concerning the execution of graces, yet, as Mr. Dannreuther shows, in the practical application of the same, many puzzling questions arise. The history of the rise and progress of ornaments commences with Diruta's Dialogo and the Italian composers, Andrea and Giovanni Gabrieli and Merulo; and then a chapter is devoted to the famous Parthenia, or the Maidenhead of the first Musicko that ever was printed for the Virginals. It is apparently among the early English masters that are to be found the earliest instances of a species of stenography to indicate ornaments in music for keyed instruments. Mr. Dannreuther has made an elaborate study of the Parthenia music, and his severe strictures on modern transcribers lead one to hope that he will one day bring out an ungarbled version of it. While ornaments constitute his special theme, he introduces many a pleasant aside: as, for instance, in the chapter on Dieupart's Suites de Clavecin, in...
