The company owns three full claims. The principal one of these, upon which the work of development is now progressing with the most favorable results, has already produced about \$8,000 almost from the surface and is showing up richer and better with each additional foot of work. The other claims are undeveloped, but show free gold upon the croppings. They promise to be very rich when opened. 3rd--The ore is free milling and can be worked easily and economically. 4th--Convenience of access; good wagon road by easy grade. 5th--The officers are all mining men and are using every dollar to the best advantage. n, g of the Review. There are at present 2,700 miners taking out gold nuggets all around us. Some of the mines have been worked for thirty years, and they are as big producers to-day as they were years ago. They are opened under the ground for three miles, which proves these channels to be permanent. We have one of these channels that we can trace from the top of the ground for two miles. We have opened it by sinking a shaft and taken out \$10,000, which proved our property. We were driven out by the water. We now have to drive a 1,200-foot tunnel to drain the mine. When this is done we will take out millions. We are offering shares at the low price of 25 cents each, par \$1, for the purpose of...
