In the past couple of decades, cancer has escalated to epidemic proportions and affects nearly one out of two men and one out of three women. With 7 8 million lives taken each year due to this disease, I can definitely say that preventing cancer should be your number one priority. Some statistics say that breast cancer in women and lung cancer in men are two of the most common types of cancer in the world. One of the major causes for this disease is our modern lifestyles which surround us with different toxins, cancerous substances, and stress. But the main reason is probably poor nutrition for most people. The lack of basic nutrients weakens our immune system which leads to serious and long term damage to your health and eventually becomes cancer. Most food is full of artificial flavors, colors, additives, stabilizers, and preservatives. Although some of these substances are harmless, many of them are extremely toxic and can deprive our organism of some important nutrients. Although most people know these facts, in theory, they cant seem to find enough time to plan their meals on a daily basis, which is why fast food has become so popular. This is exactly why juicing should be your number one choice in preventing and fighting cancer. It requires almost no time at all but provides you with an amazing amount of nutrients...
