Such methods are very generally in use, and the buildings so erected are of the class which make the reputation of reinforced concrete as a building material. --Engineering News. His Christmas Gift An architect, who is also an enthusiastic chicken fancier, spends much money coddling blooded hens that do not begin to pay for their keep. He had several hens guaranteed to be the best sort of layers, yet morning after morning he returned empty-handed from his search for eggs. By December he had about given up hope. So on Christmas morning he was delightfully surprised to find four beautiful, pearly eggs in a nest. He quickly gathered them up, planning just how triumphantly he would show them to his skeptical wife. Not until he reached the door of the house, and the bright morning light fell on the eggs, did he notice that...

Reviews

It is one of the most popular book. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
