FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Rfd Letter to Radio Farm Directors From Radio and Television Service: October 1952 Looking ahead on livestock and meat, Department economists tell us that as a result of a four-year expansion in the number raised, the number of cattle slaughtered has started to increase this year and a more rapid rise is in prospect for 1953. Slaughter of hogs next year is likely to be a little slower than in 1952 and that of sheep and lambs about the same. The increase in cattle slaughter is expected to push total meat production in 1953 moderately above 1952 and perhaps to a record high peacetime level. Heavier marketings of cattle next year my result in some further decline in the prices farmers receive for cattle. Because of the com petition from beef, prices of hogs and lambs are not expected to change much from this year. The chances are good for average profits from feeding cattle put on feed this fall, chiefly because prices paid for feeder cattle are sharply lower than last year. Feeder prices are low enough that a slow decline in fed cattle prices would not reduce profits below average.
