Raised from the dead with a message from Jesus - still relevant for today! The author uses a local event which took place in Chesterfield, Derbyshire, England in 1910 - making it of local interest to Derbyshire folk. It s a story about a man called William Sanderson who was miraculously raised from the dead and consequently cured of his life threatening illness. This particular account becomes a catalyst for thought, and acts as a driving theme throughout the book as the author investigates the dimension of faith. Facing the Star-gate engages Christian apologetics by taking a holistic approach to science and the Bible. It is written simply by an ordinary man for ordinary folk who may be desperately trying to make sense of Christianity in today s fast changing and confusing world - or just simply to grab faith and get on with it! The book, uncompromising on the fundamental teaching on the bible s message of redemption, pulls no punches and makes no apologies when taking on the big guys in the science arena. Prepared to defend simply with biblical truth and the yard-stick of common sense the author quickly challenges the reader on those first order question - Where have we come from, why are we here and where are we going ? Finally as the overall question of our place in the universe cannot be ignored, the author takes us to what he believes is the pinnacle of human completion which man is created to achieve whilst in this present world - his final chapter: Grace the final frontier examines this important point.
