Excerpt: .As late as 1836, when steam had been tried and was by no means a failure, famous scholars like Arago pronounced in dogmatic terms against it; and the idea that steam power should ever carry people, seemed so impossible that books were written to prove its impracticability. Rules are for routine men, not for genius. Napoleon s art of war set at naught the traditions. He took it up where Frederick the Great left it--and the world knows what followed. Imagine Roosevelt as an obscure man, but with all his latent aggressive forces. We will say that his name is Murphy, and he stands on a barrel at the curb stone and makes his impassioned speech, ending with the words, Come on But if a routine man tried it, the first policeman that came along would arrest him for speaking with out a license!...
