Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book is a process that is commonly used in psychology, it is styled in a dialogue of statements, to teach you to see your own better judgement. I used pieces of my own journey to help build a guide and show the cause of social disorders from my personal perspective. It is deliberately vague and personal for my own best interests, people's personal lives are their own, but at the same time when you become aware of something of value it is your obligation to share it, even if it has been said a thousand times before. The unintentional consequence of our actions are what rule half the world. I included a subliminal message at the back of the book called after thoughts for your amusement and education, it helps to understand the conditions we live in. Psychology is just reacting. Once I woke up and shook off the fog that had been clouding my vision, I realized, I was in a far different world than I remembered. Now I am surrounded by the broken-down remnants of my old self, that disguise that I had built with such painstaking care over the years. I must force myself to look at it so I will never forget who I was, but at the same time, I can't help wondering. This book is a product of my own psychoanalysis. It is meant to be a thought-provoking lesson to inspire you to delve into your own thoughts and discover who you are. It was strange when I thought of trying to change myself, first off I didn't think there was anything wrong with me to begin with. After it was done...
