Review: Outlines of Astronomy (Classic Reprint) (Paperback)

By John Frederick William Herschel

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Review: Outlines of Astronomy The introduction is reprinted with but slight change from the former work. It is a beautiful chapter, clear and concise, informing beginners in astronomy what they have a right to expect from an elementary work on this science. Its utmost pretension, says Herschel, is to place them on the threshold of this particular wing of the temple of Science, or rather on an eminence exterior to it, whence they may obtain something like a general notion of its structure or, at most, to give those, who may wish to enter, a ground-plan of its accesses, and put them in possession of the password. Admission to its sanctuary, and to the privileges and feelings of a votary, is only to be gained by one means, - sound and sufficient knowledge of mathematics, the great instrument of all exact inquiry, without which no man can ever make such advances in this or any other of the higher departments of science, as can entitle him to form an independent opinion on any subject of discussion within their range. It...

Reviews

If you need to adding benefit, a must buy book. it absolutely was writtern extremely flawlessly and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Mrs. Odie Murphy II

It in a single of my favorite ebook. It can be packed with knowledge and wisdom I am just happy to tell you that this is basically the finest ebook i have got study in my very own lifestyle and may be he greatest pdf for actually.
