

## Practical Jewellery Repair

Filesize: 3.89 MB

### **Reviews**

*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).*

Robert Hale Ltd. Hardback. Book Condition: new. BRAND NEW, Practical Jewellery Repair, James E. Hickling, For the jewellery repairer, "the ideal is the repair that cannot be detected". The means of achieving that result, says author James Hickling, may not be the orthodox one, so a textbook for him is more of a personal guide book showing the shortcuts and avoiding the pitfalls. Yet in "Practical Jewellery Repair", the author provides much more than this, putting on paper for the first time detailed information - based on his wide experience - about the methods and techniques of the professional repairer and restorer of jewellery. Starting where it all begins - in the workshop - he demonstrates that a wide range of repair work can be done with even a modest set-up, provided it is used rationally with the right selection of tools and equipment, some of which can be acquired as the skills of the user progress. There is an excellent grounding in the various processes and materials required, including a stockholding of precious metals, solders and some of the less expensive gemstones. The basic techniques of soldering, casting, wire-drawing, polishing, sawing, filing are covered and illustrated. In these days where there is a growing scarcity of antique jewellery and, consequently, an almost certain increase in its value, much of the work undertaken by the repairers is likely to be with rings. This is one of the main ways in which the author brings his 30 years' experience to bear in the comprehensive chapters on general repairs to rings, and the new making and modification of rings old and new. But there is equally valuable advice on the more usual types of repair to bracelets, locket, watchcases and brooches, including the making of joints and pins, safety catches, dent removal,...
