Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.In antitrust analysis of bank mergers, banking markets are viewed as geographically local, with a cluster of products as the relevant product line. This view is criticized as outdated, now that many bank products are offered by nonbank institutions and financial institutions operations are increasingly national in scope. This paper reexamines the question of market definition in banking, using two micro data sets uniquely well-suited to the task. We find that local depositories remain the dominant supplier of key financial services to households and small businesses, with geographic proximity still important in their institution choice.
