

Coding for Pediatrics 2016: A Manual of Pediatric Documentation and Payment

By American Academy of Pediatrics

American Academy of Pediatrics, United States, 2015. Spiral bound. Book Condition: New. 21st Revised edition. 279 x 216 mm. Language: English . Brand New Book. Published annually and currently in its 21th edition, Coding for Pediatrics is the signature publication in a comprehensive suite of coding products offered by the American Academy of Pediatrics (AAP). This AAP exclusive complements standard coding manuals with pediatric-specific documentation and billing solutions for pediatricians, nurse practitioners, administration staff, and pediatric coders. This year s edition has been fully updated and revised to include all changes to the 2016 Current Procedural Terminology (CPT(R)), complete with accompanying guidelines for their application. The numerous clinical vignettes and examples featured in the book, as well as the many coding pearls included throughout, have also been fully revised and revisited. Coding for Pediatrics, 2016 continues to provide guidance on ICD-10-CM transition including coding tips highlighting key conventions and documentation elements to support specific and accurate ICD-10-CM code selection. Other updates for this edition include Detailed information on new and revised CPT(R) codes for 2016 including Prolonged clinical staff time Removal of impacted cerumen with irrigation or lavage Revision of photo-screening services New chapter on enhanced quality and pay for performance Expanded coding resources including articles...

Reviews

Thorough guide! Its this sort of excellent read. It is really simplified but unexpected situations in the 50 % in the book. You are going to like just how the blogger create this publication.

-- Prof. Lela Steuber

Certainly, this is actually the greatest job by any publisher. It is really simplistic but shocks within the 50 % of the pdf. I am just happy to tell you that this is the very best ebook i have read in my own lifestyle and may be he greatest ebook for actually.

-- Marge Jacobson MD
