

The Idea of Divinity (Paperback)

By Daniel Boyd Crowder Phd

Createspace, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The Idea of Divinity is the third and most recently published of a series of books based on the belief that ideas cause behavior - that the things people believe to be true strongly influence and often determine one's actual behavior. The thesis of this volume is that the idea of divinity is innate in human nature. In chapter one the author seeks to validate his thesis based on the research of other scholars, and by the examination and analysis of various primitive cultures. In the remaining chapters Dr. Crowder seeks to identify and trace the origin, growth, and development of the idea of divinity through the world's great religions, concentrating especially on each religion's fundamental beliefs and ideas, and the unique contribution each has made to the world of ideas, and to the history of humanity. Though limited in scope and explications, its focus on the essentials does provide a clear and concise reading of man's search for the divine from the time he became a conscious being to the present. In the Introduction to the book, Dr...
