Progressive Press. Paperback. Condition: New. 348 pages. Dimensions: 9.5in. x 7.3in. x 0.8in. The Triumph of Consciousness traces the history of globalization during the past hundred-plus years by examining the writings and public statements of various financial and political elites who are determined to implement an authoritative, non-democratic, global government. At the forefront of this movement are the Anglo-American banking establishment, the Rockefeller Foundation, the Ford Foundation, the Bilderberg Group, the Council on Foreign Relations, the Trilateral Commission, the Club of Rome, and others. By various mechanisms, these same organizations control the environmental movement and promulgate its prevailing ethos: Earth is overpopulated, and humans are causing potentially catastrophic global warming. But are these postulations based on concrete, scientific evidence Or were they contrived to further an ulterior agenda Why dont the mainstream corporate media investigate these questions The Triumph of Consciousness addresses these issues, while reminding readers that societal change begins when individuals overcome their fear and apathy and embrace their inherent strength and wisdom.
