Very useful to any or all group of men and women. It is written in basic words instead of difficult to understand. I realized this ebook from my i and dad recommended this publication to understand.

Excerpt: . . . 11 This just gives you in perspective of where we are. And this is a real apples to apples comparison of National Defense spending as a percentage of GDP. We contributed more as a percentage of our economy under the Carter Administration than we are today, and we are facing a war that is global in reach. A war that is going to cost us a lot and a lot of time. And so I think it is important to put these things in perspective. I think it is important to consider the fact that this is our highest priority for our nation, for our federal government, but at the same time given all the dollars involved and all the sacrifices that we see from our men and women that we represent, we need to have more transparency in the way we spend our constituents dollars. And with that, I welcome our witnesses. Thank you. Chairman S. Thank you, Mr. Ryan. I ask unanimous con-PRATT sent that all members who did not have a chance to make an opening statement be able to submit one for the record at this point and Secretary England, General Cartwright, Secretary Jonas, you can submit your full statement for the record. We will make it part of the record so that you can summarize it as you see fit. We again thank you for coming and the floor is yours....
