Look no further for assistance than this much-anticipated series from Ivannia Soto, in which she invites field authorities Jeff Zwiers, David and Yvonne Freeman, Margarita Calderon, and Noma LeMoine to share every teacher's need-to-know strategies on the four essential components of academic language. The subject of this volume is conversational discourse. Here, Jeff Zwiers reveals the power of academic conversation in helping students develop language, clarify concepts, comprehend complex texts, and fortify thinking and relational skills. With this book as your roadmap, you'll learn how to: Foster the skills and language students must develop for productive interactions Implement strategies for scaffolding paired conversations Assess student's oral language development as you go It's imperative that our ELLs and SELs practice academic language in rich conversations with others in school, especially when our classrooms may be their only opportunities to receive modeling, scaffolding, and feedback focused on effective discourse.
