## THOMAS PIKETTY S CAPITAL IN THE TWENTY FIRST CENTURY : AN INTRODUCTION (PAPERBACK)

[DOWNLOAD](#)

Verso Books, United Kingdom, 2017. Paperback. Condition: New. Translation. Language: English . Brand New Book. US Nobel Prize winner Paul Krugman described Thomas Piketty s Capital in the Twenty-First Century as perhaps the most important book of the last decade . It has sparked major international debates, dominated bestseller lists and generated a level of enthusiasm-as well as intense criticism-in a way no other recent economic or sociological work has. Piketty has been described as a new Karl Marx and placed in the same league as the economist John Maynard Keynes. The rock star economist s (Financial Times) underlying thesis: inequality under capitalism has reached dramatic proportions in the last few decades and continues to grow-and not by coincidence. Thus, a small elite becomes simultaneously richer and richer and more and more powerful. Given the sensational reception of the not-so-easily digested 800-page study that spans back to the eighteenth century, the question as to where the hype around Piketty s book comes from deserves to be asked. What is correct in it? What are the criticisms of it? And what should we make of it-both of the book itself and of the criticism it has received?This book lays out the argument of Piketty s monumental work in a compact and understandable format, while also investigating the controversies that this book has caused. In addition, the two authors demonstrate the limits, contradictions and errors of the so-called Piketty revolution .
