iUniverse. Paperback. Condition: New. 248 pages. Dimensions: 9.1in. x 6.0in. x 0.6in. My name is Mona Tempus. People of your world know me as Mother Nature. So begins the funny, fanciful, and often times frightening dialogue between a strange, beautiful woman and a skeptical, bewildered man. What evolves is a chronicle of the environmental devastation that has befallen our planet. Mother Nature (Mona), with help from her crew-an unforgettable cast of characters-relates her insights into the dangers we face in the forms of rainforest destruction, air and water pollution, land degradation, global warming, species extinction, and over-population. Blending the latest scientific findings with a history of the Earth's evolution from the Big Bang to the present day, and drawing on such other disciplines as sociology, anthropology, and religion, Mona offers her unique perspective on how we landed in this predicament. Reminding us that we can't rely on Governments or Big Business to save us, she issues a call to action for the peoples of Earth to rescue their planet. . . and gives us a ray of hope in the myriad of solutions she proposes.
