Reviews

Certainly, this is actually the greatest job by any publisher. It is really simplistic but shocks within the 50 % of the pdf. I am just happy to tell you that this is the very best ebook i have read in my own lifestyle and may be he greatest ebook for actually.

URBAN GARDENING: A HONG KONG GARDENER S JOURNAL (HARDBACK)

DOWNLOAD

The Chinese University Press, Hong Kong, 2006. Hardback. Condition: New. Language: English . Brand New Book. Living in a crowded city need not mean uprooting one s connection with the earth. City gardens are proliferating at a healthy rate, and plants can be enjoyed on a rooftop, balcony, terrace or a simple window sill. There are, of course, special difficulties to gardening in cities: how to deal with typhoons, how to produce organic pest control sprays, how to turn garden waste into compost, how to use kitchenwares as tools and containers.After all, how it is possible to connect with Mother Earth in even the most restricted spaces? With this book, help is at hand for anyone who wants to know how to grow things in an urban setting. Established gardeners and rank beginners alike will find something helpful among these pages, which are sprinkled with anecdotes, recipes, photographs, illustrations and grass-roots philosophy. Non-gardeners will also enjoy this celebration of nature and ecology in words and pictures. Where so many of the available glossy books are dominated by sweeping lawns and massed tropical plantings, this book takes us back to the more familiar home garden in its many guises.
