

## Worlds Beyond: The Thrill of Planetary Exploration

By S Alan Stern

Cambridge University Press, 2003. Softcover. Condition: New. First edition. With the advent of space travel, we have begun to explore the worlds beyond Earth. Dedicated planetary scientists have spent their careers studying and exploring these worlds by telescope and through space missions. In this book, ten of these scientists have been brought together to describe their favorite worlds, what they have discovered, and what drives them to explore. Each tells a personal story. Together, the ten essays in this book range across the breadth of the Solar System - from hellish Mercury to the snows of Pluto. The stories these pioneers tell range from telescopic to robotic exploration, from personal adventures in the Antarctic to painting planetary landscapes, from the joys of success to the frustrations of failure. Worlds Beyond is the third in an extraordinary series of books in which Alan Stern has brought together leading space scientists to describe their work. The first of these volumes, Our Worlds, was truly a first of its kind in revealing the inner motivations of planetary scientists. Next, in Our Universe, leading astronomers and cosmologists explored the vastness of the Universe itself. Now, with Worlds Beyond, we return to our home -...
