

Megaregions: Globalization S New Urban Form? (Paperback)

By -

Edward Elgar Publishing Ltd, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book. Are megaregions a meaningful new spatial framework for the analysis of cities in globalization? Drawing together a range of innovative contributions and case studies from around the world, this book interrogates the many claims and counter-claims made about megaregions and critically assesses their position within global urban studies. Connecting research on megaregions to broader theoretical debates about globalized urbanization, the book examines the latest conceptualizations of trans-metropolitan landscapes. It investigates the opportunities and challenges posed by planning and governing at the megaregional scale and moves the debate forward to address questions of `how , `why and `by whom megaregional spaces are being constructed. This far-reaching book will be of considerable interest to a broad audience, appealing to those engaged in urban and regional studies, geography and planning, and with direct relevance for policymakers and practitioners working at international, state and local levels.
