## INTERNATIONAL FINANCE DISCUSSION PAPERS: THE INFORMATION CONTENT OF HIGH-FREQUENCY DATA FOR ESTIMATING EQUITY RETURN MODELS AND FORECASTING RISK

International Finance Discussion Papers:  
The Information Content of High-Frequency Data for Estimating Equity Return Models and Forecasting Risk

United States Federal Reserve Board,  
Dobrislav Dobrev, Pawel Szerszen

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback 48 pages. Dimensions: 9.7in x 7.4in x 0.1in. We demonstrate that the parameters controlling skewness and kurtosis in popular equity return models estimated at daily frequency can be obtained almost as precisely as if volatility is observable by simply incorporating the strong information content of realized volatility measures extracted from high-frequency data. For this purpose, we introduce asymptotically exact volatility measurement equations in state space form and propose a...
