# SEXUAL DIMORPHISM & HABITAT OF THE SCORPION URODACUS ELONGATUS

Jennifer Munro  
Sexual dimorphism & habitat of the scorpion Urodacus elongatus  
Endemic species of the Flinders Ranges, South Australia

LAP Lambert Academic Publishing Mrz 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x4 mm. This item is printed on demand - Print on Demand Neuware - Part one of this study of the Flinders Ranges scorpion Urodacus elongatus (Scorpionidae) described instar number, sexual dimorphism, and sex related movement and survivorship. Six instars were determined for both sexes, with individuals allocated based on morphometrics. Persistent sexual differences enabled differentiation in second to sixth instars. Sexual dimorphism slowly developed in immature instars, and...

## Reviews

*Certainly, this is the very best work by any writer. It is loaded with knowledge and wisdom I am just quickly will get a satisfaction of reading through a created publication.*

-- **Donavon Okuneva**

*The very best pdf i at any time read through. This is for all those who statte there had not been a worthy of studying. You wont sense monotonny at whenever you want of your own time (that's what catalogs are for concerning when you request me).*

-- **Fabian Kuhlman II**

*This ebook will be worth acquiring. It is actually writer in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Trystan Yundt**
