By G Cotteau

Forgotten Books, 2018. Paperback. Condition: New. Language: French . Brand New Book ***** Print on Demand *****. Excerpt from Paleontologie Francaise, Vol. 9: Description des Animaux Invertebre; Terrain Jurassique, Echnides Irreguliers Le systeme nerveux apparait sous la forme de filets blancs et delies qui tapissent et la paroi interne du test et les principaux organes. On a constate egalement, entre les py ramides de l appareil masticatoire, l existence d un cercle nerveux ou anneau pentagonal. C est de ce centre que partent, au nombre de cinq, les nerfs ocellaires qui vien nent aboutir exterieurement a de petites plaques perforées, placees au sommet de chacune des aires ambulacraires et faisant partie de l appareil apical Bien que l extremite de ces nerfs ocellaires ne presente, suivant M. Valentin, ni cristallin, ni corps lenticulaire, ils sont cependant consi deres par tous les auteurs, comme representant, chez les Echinides, les organes de la vision. Reviews

Complete guide! Its such a great study. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
