Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Parenting styles evolve over the years, and the following generation reaps the results. Most recently, the Momma Ho style of parenting has produced countless sons who have not turned into real men. This is the pimp generation. The pimp generation expects women to do everything: go to school, earn the household s money, and still do all the cooking and cleaning. Meanwhile, the boys just get to lounge on the couch or in the club. These are not real men, and they are unable to make it in the world on their own. We need to raise sons who are independent, competent, and willing to find solutions to their problems. This helpful guide provides insight into how the pimp generation came about, and it provides practical advice on changing this situation. Raising a child with ambition and responsibility is no easy task. It can be hard for parents to stop wanting to do everything for their children. But one day the children must leave the nest. This shrewd assessment of today s parenting culture shows that it is time to shift directions. For any struggling single parent, this advice will lead the way to sons we can all be proud of.
