By Paul MacRae

Spring Bay Press, Canada, 2010. Paperback. Condition: New. New.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.False Alarm is for the concerned citizen who wants to learn all sides of the climate change issue, not just that of the global warming alarmists who currently dominate the media. We, the public, are told the science on global warming is settled, certain, and beyond debate or discussion: The planet is warming, humans are the main reason, and the results will be catastrophic. In fact, as the climate alarmists know full well but do not wish the public to know, the planet isn't warming right now and hasn't since the late 1990s. How can humans be primarily responsible for warming that isn't occurring? And there is no empirical evidence at all to indicate that if the planet does begin to warm again, the results will be disastrous - the outcome may even be a greener planet since carbon dioxide acts as a fertilizer. The only evidence for impending catastrophe exists in computer models. In fact, as this book shows, global warming alarmism is based more on politics, environmentalist beliefs, and psychological groupthink than on science. This is...
