When performing any sort of pediatric care, there are certain procedures a physician will need to follow. For those who are learning about medicine and going through a pediatric program, using a pediatric care and checklist study guide is pretty much essential so that you can absorb everything possible about working in pediatrics. After leaving medical school, some newer pediatricians may want to keep a pediatric care and checklist study guide handy so that they can have it for consultation and so that the checklist becomes a habit.
