Reviews

*Absolutely essential go through publication. This can be for all who statte there was not a worthy of looking at. Its been printed in a remarkably basic way and it is just right after i finished reading this book through which in fact altered me, modify the way i think.
(Dr. Haskell Osinski)*

GEOLOGICAL SURVEY BULLETIN VOLUME 1123

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. Excerpt: .Geologic data from wells was also furnished by the following drillers: Kertels Brothers, Harry Ernster, Tony Beets, and Paul Gille. The authors acknowledge the cooperation of the following people who aided in the work in many ways: H. G. Hershey, Director of the Iowa Geological Survey; M. A. Melcher, President of the Wisconsin Institute of Technology; Monroe Koyce, a former lead miner; Elsie Datisman, librarian at the Dubuque Carnegie-Stout Public Library; the city and water engineers of Dubuque, Iowa; and James Bradbury of the Illinois Geological Survey. About 18 square miles of the Dubuque North quadrangle was studied in detail and mapped before this quadrangle-mapping project began: Flint and Brown (1954), Brown and others (1955; 1957). (See pl. 10, index to geol. mapping.) Geologic data from these maps were adjusted to the 1955 topographic base map. This adjustment and geologic data collected since 1954 resulted in minor changes in configuration of formational boundaries and structure contours. The remainder of the quadrangle was studied and mapped in 1955 and 1956 in conjunction with mapping of the Dubuque South quadrangle (Brown and Whitlow, 1960) and completed in 1957. The altitude of most structure control points was surveyed with planetable and telescopic alidade. The base altitudes used are bench marks and supplemental altitudes established by the U.S. Geological Survey. Subsurface geologic data were obtained from well records in the files of the Iowa Geological Survey, from cuttings of holes drilled by the U.S. Geological Survey (Flint and Brown, 1956), from...
