Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.- BEFORE YOU READ DESCRIPTION- This copy is the original colored version. If you have a problem affording it, you can buy the black and white version. But remember some scenes in the storyline require color to help you understand my point (Youll understand when you read it) * * * * Before you start reading my very first book, I want you to know that I started writing it at the age of 18 (2014), and it took almost me three years to finish it (2017). The book contain 320 fully colored pages with an amazing design. The book size is 8.5 x 11 (21.59 x 27.94 cm) [To fit the design and the story] This book is the first volume of the book series The orbs of the fallen. Sub title: Xt9 Virus (Vol. 1) Unique imaginary storyline the series should have over 1200 orb users (Characters) each with his different story fighting for survival [youll understand when you read the book] I also want to mention the illustrations. The illustrations are my own. I hope that you will enjoy my work as much as I enjoyed creating it. I didn t want the book to be published without these illustrations even though I was a beginner artist back then. Although I have avoided the use of strong profanity and racist language, this book does contain a lot of violence and is rated for children of age 13 and above. I really hope you enjoy my imaginary story. If you re reading this, know that you re awesome. Enjoy your day, my friends. I recommend using a worldwide map application to grasp the distance my characters cross during the storyline.
