Reviews

A really awesome publication with perfect and lucid reasons. I was able to comprehend every thing using this published e.pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. GAO discussed Federal Aviation Administration (FAA) appropriation issues, focusing on: (1) air traffic control modernization; (2) National Airspace System (NAS) Plan implementation problems; and (3) work force issues. GAO found that: (1) 23 percent of the 89 NAS projects were complete, but 28 percent were still in the design or development phases; (2) the FAA facilities and equipment (F and E) request of almost 2 billion for fiscal year (FY) 1990 represents a 41-percent increase over the FY 1989 F and E appropriation, and FAA may need to request an estimated 4.5 billion in FY 1991 in order to meet current modernization schedules; (3) the significant increase in F and E funding needs will require FAA to revise its modernization plan and prioritize its projects; (4) FAA has not formally established the staffing necessary to implement modernization projects to meet existing schedules; (5) as of January 19, 1989, six of the nine FAA regions had not issued any work authorizations to the primary installation contractor; (6) FAA did not adequately define the tasks and scheduling needed to complete implementation; (7) FAA has made progress rebuilding its controller work force, but will probably not meet its staffing goals for full-performance-level controllers in the time frames established; and (8) maintenance technician staffing shortages could require FAA to contract for maintenance services, even though it has not determined whether the private sector can adequately provide such services. This item ships from La Vergne, TN. Paperback.
