Reviews

This kind of pdf is every little thing and taught me to looking forward and more. It is one of the most incredible book i have read. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about should you check with me).
(Miss Amelie Fritsch DVM)

IRRIGATION IN NORTHERN ITALY, VOL. 2 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Irrigation in Northern Italy, Vol. 2 Four of the canals described in this report take water from the Adda River; the fifth is supplied from the Adige. The Adda rises on the southern slopes of the Alps, flows through Lake Como, which serves as a natural regulator, and after traversing the foothills south of the lake for several miles, reaches the north boundary of the Po Valley, which it crosses in a southeasterly direction, and empties into the Po near Cremona. The location of the canals studied and the territory irrigated from the Adda are shown on the map. (pl. I.) The first of the canals to be studied was the Martesana. It was inspected in company with Mr. Grossi, the assistant engineer. Its headgate is the highest of all irrigation systems from the Adda, the only. Diversions above that point being for power purposes. The appearance of the valley at the head of the martesana is shown in Plate II, figure 1. It is a most picturesque region, but one ill - suited to canal building, as the bluffs bordering the river are high, rocky, and steep. The river at this point has a rapid fall. Its surface is capped with foam as it plunges down over the immense boulders which obstruct the channel. Naturally picturesque, the beauty of the scenery of this region has been greatly enhanced by its historic interest. Many of the bluffs are crowned with the ruins of medieval castles-or with beautifully kept terraced gardens surrounding palaces and villas, which furnish illustrations of the best work in modern architecture and landscape gardening. At the foot of one of the piers of the bridge shown in...
