CAPABILITIES-BASED PLANNING FOR ENERGY SECURITY AT DEPARTMENT OF DEFENSE INSTALLATIONS (PAPERBACK)

Capabilities-Based
Planning for Energy
Security at Department
of Defense Installations

Constantine Samaras, Henry H. Willis

RAND Corporation, United States, 2013. Paperback Condition: New. Language: English . Brand New Book Department of Defense (DoD) installations rely on the commercial electricity grid for 99 percent of their electricity needs, but the U.S. electricity grid is vulnerable to disruption from natural hazards and actor-induced outages, such as physical or cyber attacks. Using portfolio analysis methods for assessing capability options, this paper presents a framework to evaluate choices among energy security strategies for DoD installations.

Reviews

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be he best publication for at any time.
