River Grove Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Why and how do world-class leaders and great performers consistently beat their competition? They realize they cannot go it alone. They use teams and coaches to amplify their results. Many performers who have already surmounted exceptional tests and challenges and have succeeded in business, sports, the military, or the arts well beyond their peers think performance is only up to the individual. Many become frustrated when hours of hard work, years of experience, and expensive educations don t lead them to the top of their domain. They are already among the best, but they want to be the best. The elite realize there is only so much they can do on their own to achieve that status. They understand they need coaches, colleagues, and competitors to provide the collaboration and competition that serves as a constant push to keep forward momentum going toward attaining that next level. In Cultivating Excellence, Darryl Cross uses thirty years of experience to show top performers that the key to continued enhancement of performance and success is an exceptional coach and team. They guide the elite performers to see situations and challenges in new ways (art), to perfect their craft to the nth degree (science), and to commit to deliberate practice that eliminates performance gaps (grit) and puts the summit within reach.
