Lucas, Jr. has found a more perfect way to unite the Axiomatic and Empirical scientific methods to obtain an improved version of the electrodynamic force law. From this improved version of the electrodynamic force law electrodynamic versions of the forces of gravity and inertia have been derived and shown to be superior to Newton s universal law of gravitation and Einstein s general relativity theory. Again following Newton s procedures, Dr. Lucas has declared this improved version of the electrodynamic force law to be the universal force law and shown that the unique chiral symmetry properties of this force are evident on all size scales in the universe from the structure of elementary particles, atoms, nuclei, molecules, crystals, flowers, leaves, seed pods, orbits of the planets, Milky Way galaxy, and the universe as a whole. Dr. Lucas then goes on to show from the Bible that God acts in an electrodynamic way. His Shekinah Glory is of an electrodynamic character, and His power is exerted in an electrodynamic fashion. Furthermore God has the same chiral symmetry as the universal force. The Tabernacle built by Moses, the Temple built by Solomon and the New Testament Church built by Christ also have this symmetry. Also the Hebrew and Greek languages by which God spoke to man have this symmetry. The unique symmetry of the universal force is declared to be the fingerprint of God the creator. According to the dictionary this symmetry is the source of all beauty in the universe. Dr. Lucas interprets the fingerprint of God as a sign that reveals some intimate details about God.
