Georgetown University Press, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book. Even before the wreckage of a disaster is cleared, one question is foremost in the minds of the public: What can be done to prevent this from happening again? Today, news media and policymakers often invoke the lessons of September 11 and the lessons of Hurricane Katrina. Certainly, these unexpected events heightened awareness about problems that might have contributed to or worsened the disasters, particularly about gaps in preparation. Inquiries and investigations are made that claim that lessons were learned from a disaster, leading us to assume that we will be more ready the next time a similar threat looms, and that our government will put in place measures to protect us. In *Lessons of Disaster*, Thomas Birkland takes a critical look at this assumption. We know that disasters play a role in setting policy agendas - in getting policymakers to think about problems - but does our government always take the next step and enact new legislation or regulations? To determine when and how a catastrophic event serves as a catalyst for true policy change, the author examines four categories of disasters: aviation security, homeland security, earthquakes, and hurricanes. He explores lessons learned from each, focusing on three types of policy change: change in the larger social construction of the issues surrounding the disaster; instrumental change, in which laws and regulations are made; and political change, in which alliances are created and shifted. Birkland argues that the type of disaster affects the types of lessons learned from it, and that certain conditions are necessary to translate awareness into new policy, including media attention, salience for a large portion of the public, the existence of advocacy groups for the issue, and the preexistence of...
