## Beginning Microsoft Small Basic - A Computer Programming Tutorial - Color Illustrated 1.0 Edition (Paperback)

By Philip Conrod, Lou Tylee

Kidware Software, United States, 2014. Paperback. Condition: New. Color Illus. ed.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The BEGINNING MICROSOFT SMALL BASIC computer programming tutorial is an interactive self-study color illustrated tutorial textbook explaining in depth the new Microsoft Small Basic development environment using many Microsoft Small Basic program examples. This course is written for the absolute beginner programmer and can be used by students (10+ years old) as well as adults. The BEGINNING MICROSOFT SMALL BASIC programming tutorial consists of 400+ pages explaining (in simple, easy-to-follow terms) how to build Small Basic applications. You will learn about program design, text window applications, graphics window applications and many elements of the Small Basic language. Numerous examples are used to demonstrate every step in the building process. The tutorial also includes several detailed computer programs to illustrate the fun of Small Basic programming. Finished programs can even be published on-line to share programs with others. The last chapter of the tutorial shows you the source code for a couple of David H. Ahl's classic BASIC Computer Games ported into several different computer programming languages including BASIC, Microsoft Small Basic, Visual Basic, Visual C#, and Java. No...
