TESTOSTERONED CHILD. SAD.: OR THE DAWNING OF A NEW RENAISSANCE? (PAPERBACK)[DOWNLOAD PDF](#)

Next Scandinavia / Det Andersenske Forlag, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The Trump presidency is the symptom of something much bigger and it is not the first time it has happened. Our meaning-making has not been able to keep up with technology and globalization. We navigate an increasingly complex world using models that were developed for industrialization-at a time when traditional industry is disappearing. This kind of mismatch between our real world and our understanding of it has happened before. The Reformation, the French Revolution and World War II were all results of old epistemologies reaching their limit and new ones not being able to emerge without a bloodbath. Given that we have the knowledge we have, can we avoid the bloodbath and go straight to the peace negotiations? Can we develop the culture, education, aesthetics, and institutions that we need in order to handle the complexities of the 21st century? Based on recurring historical patterns, moral and developmental psychology and complex-systems theory, Lene Rachel Andersen analyzes the current state of Western politics and makes a strong case for hope and a better future.
