Polyteknisk Boghandel og Forlag. Paperback. Condition: new. BRAND NEW, The MATLAB Syntax, Anders Skajaa, Jakob Heide Jorgensen, Matlab (MATrix LABoratory) is one of the most widely used programming environments for numerical computations and simulations in the technical sciences. The reason is that Matlab makes it easy to get started as well as to construct advanced programs. The book contains a strict and concise description of the most used functions, terms and concepts in Matlab software. It is limited to covering what is typically used by a university student and is designed as a reference of the syntax including plenty of examples. While the primary audience of the book is university students, it is well suited for anyone who wants to become acquainted with Matlab.
