Date :2011-06-01 version 2. Money. such as sand China Environmental Instrument Analysis (2nd Edition) system introduced atomic emission spectrometry. atomic absorption spectrometry. atomic fluorescence spectroscopy. X-ray fluorescence spectroscopy. UV - visible absorption spectroscopy. infrared spectroscopy. nuclear magnetic resonance spectroscopy. mass spectrometry. conductivity analysis. potential analysis. Coulomb analysis. polarography and stripping voltammetry. gas chromatography. liquid chromatography analysis of fourteen of instruments and instrumental analysis techniques combined with the basic principles of construction equipment. methods. features. and environmental analysis and monitoring applications. And possible introduction of new technologies and new methods. Environmental Instrument Analysis (2nd Edition) can be used as reference materials or institutions of higher learning. but also as a scientific research institutions at all levels of environmental scientists and environmental monitoring stations and monitoring staff learning and training materials or reference books . Contents: Chapter I Overview of optical analysis of atomic emission spectrometry Section II the basic principles of atomic emission spectroscopy atomic emission spectrometry method of Section III-atomic emission spectrometry in environmental analysis of the application of Chapter II atomic absorption spectrometry Section III outlines the basic principles of Section IV atomic absorption spectrophotometer interference in atomic absorption spectrometry and atomic absorption spectrometry method to eliminate Section V Section VI atomic absorption spectrometry applications in environmental analysis Chapter AFS Section II the basic principles of atomic fluorescence analysis Section III atomic fluorescence spectrometry in environmental analysis of Chapter X-ray fluorescence spectrometry Section II outlines the basic principles of Section X Section X-ray fluorescence spectrometer V-ray fluorescence analysis method X-ray fluorescence spectroscopy in environmental analysis of Chapter UV - visible absorption spectroscopy of molecular absorption spectroscopy Overview Section II metal complexes...
