

## Astronomy and astro-physics Volume 8

By Carleton College. Observatory

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 162 pages. Dimensions: 9.7in. x 7.4in. x 0.3in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 edition. Excerpt: . . . St. Louisans should endow an astronomical Observatory here, deserved more attention than it seems to have received. The excellent work done by the St. Louis party in the eclipse expedition shows that we have astronomical ability here of the highest order, only it needs encouragement. I suggest first the formation of an Astronomical Society to awaken an interest in the subject, and I should be glad to receive the addresses of any who, like myself, are students of the sublime science, and would like to come together and see what can be done in the line of your excellent suggestion. The Great Telescope for Los Angeles, Cal. The following note was taken from the Aha California of Feb. 28, 1889: The great telescope which it is proposed to put upon Wilson's Peak, near Los Angeles, will perhaps not be built. Alvan Clark, who was invited...
