Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Vermont Shrubs and Woody Vines The method of using the keys will probably be evident to most; yet lest any reader should be puzzled, an explanation of their use is given at the bottom of the next page. The matter of discriminating between related species has been simplified and the pages made clearer as well as more attractive by illustrations. In the arrangement of families and the choice of botanical names, the usage Of the Gray New Manual of Botany is fol lowed. Where the names of earlier standard works or of other modern texts, including the Britton Manual, differ from this, the synonymy is entered in parentheses. For many of the English names the usage of the Britton Manual has been followed, and where local custom departs from that of the botanical texts the aim has been to recognize it. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
