

## Supporting Mathematical Development in the Early Years

By Linda Pound

OPEN UNIVERSITY PRESS, United Kingdom, 2006. Paperback. Book Condition: New. 2nd Revised edition. 228 x 150 mm. Language: English . Brand New Book. Review of the first edition include: All the major areas of early childhood maths teaching and learning are covered in this powerful book! The book is also full of delightful stories! [It] would be eminently suitable for beginning and trainee teachers but would also be helpful to all those concerned in early years settings. All the relevant information is here, based on a wealth of knowledge and experience - TES . Supporting Mathematical Development in the Early Years provides practical guidance for parents, teachers and other early years workers who want to give children a good start in mathematical development. Showing how competent children are as mathematicians from an early age, the book offers an overview of young children s mathematical behaviour at home and in early years settings. The book describes the content and the learning curriculum required to promote mathematical thinking, including an examination of the relationship between mathematics and language learning, and the role of other cross-curricular aspects such as information and communications technology (ICT). It explores the role of staff in observing, planning...

### Reviews

*Good electronic book and useful one. It usually does not expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Annette Boyle**

*The publication is great and fantastic. I actually have read through and i am sure that i am going to planning to go through yet again yet again down the road. I realized this pdf from my dad and i encouraged this publication to understand.*
