

The Sentient Machine: The Coming Age of Artificial Intelligence (t)

By Amir Husain

Scribner. Hardcover. Condition: New. 352 pages. In the tradition of Michio Kakus The Future of the Mind, acclaimed technologist and inventor Amir Husain answers the universal question of how we can live amidst the coming age of sentient machines and artificial intelligenceand not only survive, but thrive. The future is now. Artificial machine intelligence is playing an ever-greater role in our society. We are already using cruise control in our cars, automatic checkout at the drugstore, and are unable to live without our smartphones. The discussion around AI is largely polarized; people think either machines will solve all problems for everyone, or they will lead us down a dark, dystopian path into total human irrelevance. Regardless of what you believe, the idea that we might bring forth intelligent creation can be intrinsically frightening. But what if our greatest role as humans so far is that of creators Amir Husain, a brilliant inventor and computer scientist argues that we are on the cusp of writing our next, and greatest, creation myth. It is the dawn of a new form of intellectual diversity, one that we need to embrace in order to advance the state of the art in many critical fields,...
