Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Governance of Non-Point Source Inputs to Narragansett Bay: A Plan for Coordinated Action The United States Congress created the National Estuary Program in 1984, citing its concern for the health and ecological integrity of the nation s estuaries and estuarine resources. Narragansett Bay was selected for inclusion in the National Estuary Program in 1984 and designated an estuary of national significance in 1988. The Narragansett Bay Project (Nbp) was established in 1985. Under the joint sponsorship of the U.S. Environmental Protection Agency and the Rhode Island Department of Environmental Management, the Nbp s mandate is to direct a five-year program of research and planning focussed on managing Narragansett Bay and its resources for future generations. The Nbp will develop a comprehensive management plan by December, 1990, which will recommend actions to improve and protect the Bay and its natural resources. The Nbp has established the following seven priority issues for Narragansett Bay: * management of fisheries * nutrients and potential for eutrophication * impacts of toxic contaminants * health and abundance of living resources * health risk to consumers of contaminated seafood * land-based impacts on water quality * recreational uses The Nbp is taking an ecosystem approach to address these problems and has funded research that will help to improve our understanding of various aspects of these priority problems. The Project is also working to expand and coordinate existing programs among state agencies, governmental institutions, and academic researchers in order to apply research findings to the practical needs of managing the Bay and improving the environmental quality of its watershed. This report represents the technical results of an investigation performed for the Narragansett Bay Project. The information in this document...
