Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Conversational Lecture on the Origin of Life, and Celestial Mechanics The dual quality of electricity has been a subject which has engaged my attention for many years, and it has been the purpose of the following address, which I gave at the request of friends, before a small assemblage of invited guests, at the home of my daughter, to set forth some of the latest facts and my final ideas concerning this subtle force. My opinions have been strengthened by every discussion of the many facts connected with it, and every expression of my conviction has still further confirmed me, notwithstanding the differences of opinion entertained by electricians and their criticisms of the ideas I have endeavored to set forth.
