

## Science in the Real World: A Simplified Story of How Technology Using Chemistry and Physics Is Used in the Real World of Industry

By Alan McGown

MoshPit Publishing, United States, 2015. Paperback. Book Condition: New. 203 x 133 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This is a book for secondary school students in years 7 to 10 and is intended to show the readers that there are many applications of science in industry. Whether you already have an interest in Science or are not sure what Science is, then this book is designed to show you in a simplified way, how science is used in the real world. This book does not compete with existing texts, but aims to give students a few examples of how science is used in industry. This book is deliberately short and leaves out a lot of detail so that teenage readers will not turn off in the first few pages. Students in year 6 will also be interested, so that by reading or skimming through this book they may become interested in Science before they need to make important subject choices in year 7. The industrial processes are described in only just enough detail to understand the principles involved. One important principle readers will get from this book, is that a process can be simple...
