Taylor Francis Ltd, United Kingdom, 2015. Paperback. Condition: New. New. Language: English . Brand New Book. The main values and principles of Transactional Analysis, in its original psychodynamic matrix, become a concrete experience in this book thanks to the accurate description of the daily practice of a long-experienced therapist: Anna Emanuela Tangolo. Analyzing several cases, the author examines the clinical tools of Berne's group therapy and the analysis of dreams, without however neglecting other important aspects such as preparing the setting or leading an interview. Particular relevance is given to the therapeutic relationship, seen as the interweaving of an experience in order to send stimuli to the patient so as to re-structure his or her intrapsychic world through rigorous and precise inputs, analysable in linguistic sequences. This book is meant not only for those who study psychotherapy, but also for anyone who wants to learn about clinical TA and its functioning.
