Build Your Own Home Theater

By John Adams

Newnes. Paperback. Condition: New. 320 pages. Dimensions: 9.9in. x 6.9in. x 0.6in. Written to provide information on all price ranges of equipment to everyone from the beginner to the experienced home theater owner, Build Your Own Home Theater has been completely updated for today's audience. This new edition contains valuable consumer information on the latest digital home theater components and technology, including digital surround sound receivers, DVD players, digital television and HDTV, digital satellites (DBS), digital camcorders, and digital hard-drive video recorders. It also features easy-to-understand explanations of surround sound technology and set ups-including Dolby Digital, THX Surround EX™, and DTS-ES™. If you are interested in audio, video, and home theater technologies, this book will give you the information you need to choose the right components, hook the pieces together, and create a fabulous theater experience right in your own living room. When the first edition of Build Your Own Home Theater was published, decent home theater systems were primarily only affordable for wealthier consumers. Now, several years later, the technology is accessible to millions of homes as products such as wide-screen televisions, digital surround sound audio, DVD Video and Audio Players, and digital satellite systems have become commonplace. Though most...
